A KEY MILESTONE IN PRYSMIAN’S GROWTH STORY:

THE ACQUISITION OF GENERAL CABLE
## TRANSACTION HIGHLIGHTS

### Transaction terms and structure
- Prysmian has entered into a merger agreement to acquire 100% of the outstanding shares of General Cable ("GC") (the "Transaction"), representing a total Enterprise Value of approximately $3bn
- GC shareholders to receive a cash consideration of $30.0 per share

### Strategic rationale & value creation
- Highly complementary geographical footprint with major increase to North America’s exposure
- The Transaction is expected to generate approx. €150m run-rate pre-tax annual cost synergies to be realized within 5 years after closing, with a substantial portion to be achieved by the third year
- The merger is expected to be EPS accretive\(^1\) in the range of 10-12% for Prysmian shareholders already within the first year post closing (pre-synergies and related implementation costs)

### Financing
- At closing, the Transaction is expected to be entirely funded with a mix of newly committed debt facilities and cash on balance / existing committed credit lines
- Initial pro-forma leverage of approx. 2.9x NFP\(^2\) over adj. EBITDA\(^3\) LTM 3Q-2017 PF (pre equity instruments issuance)
- Post closing equity instruments issuance up to €500m will be considered to retain a flexible capital structure to pursue future growth opportunities by external lines

### Approvals and timing
- The Transaction has been unanimously approved by both Prysmian and General Cable Board of Directors and recommended to its shareholders by General Cable’s Board of Directors
- Estimated closing by 3Q-2018, subject to completion of required regulatory approvals and other customary closing conditions
- Completion of the Transaction requires approval from General Cable shareholders representing at least a majority of the outstanding shares, leading to 100% ownership

---

1) EPS attributable to Prysmian shareholders: (i) before cost synergies and implementation costs and (ii) including equity instruments issuance of €500m
2) Pro-forma NFP 2017E assuming conversion of Prysmian 2013 convertible bond (€300m)
3) EBITDA adj. as defined by Prysmian and General Cable
