

PRESS RELEASE

**PRYSMIAN GROUP AT WIND EUROPE CONFERENCE & EXHIBITION 2019 IN BILBAO**

**A NEW ONE-STOP-SHOP SOLUTION PROVIDER APPROACH FOR THE WIND ENERGY INDUSTRY**

**TURNKEY CABLE SOLUTIONS, PROJECT ENGINEERING, STATE-OF-THE-ART CABLE TECHNOLOGIES AND ASSET MANAGEMENT SYSTEMS AND SERVICES ON DISPLAY**

Milan, 27 March 2019 - Prysmian Group, world leader in the energy and telecom cable systems industry, is leveraging on its strategic one-stop-shop solution provider approach to grow in the wind energy industry. The Group will present its advanced turn-key services and full range of products at 2019 edition of the Wind Europe Conference & Exhibition in Bilbao, Spain, from 2 to 4 April (BEC – Bilbao Exhibition Centre, Booth 1-C42).

“Wind Europe 2019 is the occasion to further prove the Group’s leadership in the wind energy market, becoming the undisputed “one-stop solution provider” for Transmission System Operators and offshore wind farm developers delivering projects with a comprehensive EPCI approach, ensuring a tighter control over the entire supply chain. In fact, the Group can offer complete cable system solutions and services, considering innovative approaches, proving its extended capability to meet market needs while utilising extensive engineering resources, manufacturing facilities and a wide range of installation vessels and burial equipment,” stated Raul Gil, VP Submarine Business Unit, Prysmian Group. In addressing the direct needs of the sector, Raul Gil will also be speaking at **Wind Europe Thought Leaders Forum** in the **Innovations in subsea cables** session (3 April, 11,00 – 11,30, Hall 1).

Wind Europe 2019 is a key industry event for the Group to present its developments in innovative, sustainable and cost-effective cable solutions for the offshore renewable power sector as HV & Submarine, PD and Turbine cable solutions as well as installations system services including PRY-CAM monitoring systems and Power Link Cable Solution, the innovative enhanced asset management service for critical power links service designed to provide a comprehensive and effective asset management of submarine cable operations, from prevention to repair.

Wind Europe 2019 comes at a very important time for the Group as Prysmian has been recently awarded for the first time a turn-key project for a floating wind farm in France for which will be deployed the innovative dynamic 66 kV submarine cables with EPR insulation and a full permanent combined PRY-CAM monitoring system, which represents a true milestone in the power grids monitoring industry. As a matter of fact, it is the first example in the world of a full combined permanent monitoring system for an offshore windfarm. This project confirms once again Prysmian Group unique expertise in the development of cable systems for offshore wind applications.

**Prysmian Group**

Prysmian Group is world leader in the energy and telecom cable systems industry. With almost 140 years of experience, sales exceeding €11 billion, about 29,000 employees in over 50 countries and 112 plants, the Group is strongly positioned in high-tech markets and offers the widest possible range of products, services, technologies and know-how. It operates in the businesses of underground and submarine cables and systems for power transmission and distribution, of special cables for applications in many different industries and of medium and low voltage cables for the construction and infrastructure sectors. For the telecommunications industry, the Group manufactures cables and accessories for voice, video and data transmission, offering a comprehensive range of optical fibres, optical and copper cables and connectivity systems. Prysmian is a public company, listed on the Italian Stock Exchange in the FTSE MIB index.
