

Energy

ENERGY CONSUMPTION (GJ)

Energy consumption by the Group, which has changed slightly due largely to production trends and the non-proportional change in electricity consumption, totalled 6,261,714 GJ in 2016, up by 1.17% compared with 2015 due, in the main, to an increase in consumption per unit of product in the power cables category.

ENERGY CONSUMPTION PER TONNE OF PRODUCT (GJ/t)

ENERGY CONSUMPTION PER Km OF PRODUCT (GJ/Km)
